20.—The principal feature of the evening was a paper on finance, by Mr. J. C. Briegs. SAN FRANCISCO: MICROSCOPICAL SOCIETY: Nov. 19.—The principal business of the evening consisted in the exhibition of specimens of objects interesting to microscopists, and of an apparatus devised by Mr. Hanks for cutting slides of a uniform size.

BOSTON: HISTORICAL GENEALOGICAL SO-CHETT: Dec. 2.-A paper was read by Mr. E. H. Derby on the services to New-Hampshire of the Scottist colonists of the heroic age of the republic. The death of Mr. Daniel Haskell, editor of The Boston Transcript, was announced, and a committee appointed to prepare appropriate resolutions. Resolutions were also adopted upon the death of the late Dr. Timothy Farrar.

NEW-HAVEN: HISTORICAL SOCIETY: Nov. 80. -Annual meeting, Dr. Beardsley in the chair. The reports of the Curator, Librarian, and Treasurer were presented, the latter amounting that the permanent fund of the Society amounted to about \$1,400. Resolutions were adopted in reference to the death of Mr. Ralph Deming Smith of Guilford.

PEORIA: ILLINOIS STATE HORTICULTURAL SOCIETY: Dec. 8 .- Annual meeting, continuing for several days. Various papers were read relating to practical horticulture, together with reports from the various horticultural societies of the State. These, as a geogral thing, were of an unfavorable character, showing that the dry weather has played serious havoc with trees and fruit during the year.

BOSTON: MASSACHUSETTS ANGLERS' ASSOCIA-TION: Nov. 30.—A communication was presented by Mr. Benjamin P. Ware in reference to the causes which have led to the gradual and continued diminution of lobsters and fishes on the coast of New-England. The latter be referred to the practice of line trawling for cod and haddock, which destroys great numbers withcou and maddock, which destroys great numbers with-out utilizing them as food. The shipment of haddock spawn to France, to be used as sardine batt, has also stimulated the capture of these fish in numbers not re-quired for food during the spawning season of April and May. The taking of mackerel by means of seines instead of lines is also considered by Mr. Ware as likely to cause a great decrease in tuelr numbers in a short time.

DAVENPORT, IOWA: ACADEMY OF SCIENCES: Nov. 28 .- A paper was read by Mr. Tiffany upon what he considered a prehistoric cremation mound. This he described as being about four teet in hight and 25 in diameter, the clay a short distance below the surface being burned to the hardness of soft brick and to a thickness of about two feet. Beneath this shell was found a large number of fragments of human bones, some com-pletely charred and others partially so; and the indica-tions were that a considerable number of human bodies had been placed on the hearth with fire over them and then covered with clay, forming a kind of oven in which the bones were burned. No relics or weapons of any kind were discovered.

BOSTON: AMERICAN ACADEMY OF ARTS AND SCIENCES: Dec. 8.-Mr. Scudder communicated a Memoir on the names of the Genera of Batterflies, their mistory and limitation. Mr. Wm. A. Rogers of the Cambridge Observatory gave an account of the difficulties encountered in the reling of very fine lines on plates of crown glass, and a kind of explosive desquamation of the surface of the class which occurs when the lines are ruled in certain directions only. The President, the Hon. In certain directions only. The President, the Hon. Francis C. Adams, read a report of a committee on the designation of 'occan lines," or lines of voyage for Atlantic steamships, in crier to diminish the now increasing dangers of collision. Prof. Washburn made a final report from the committee to memorialize the Legislature of the State in behalf of a law to regulate expert testimony. The committee was empowered to act for the cusuing year, and to communicate with the new Legislature.

There is nothing new or important to report concerning the business aspect of the country, though there is perhaps a little improvement in the export demand for produce, especially in the line of breadstuffs. The dry goods trade continues dull, with drooping prices, this branch of business having perhaps been adversely affected by the failure of two or three dry goods houses, with rumors of others likely to follow the example. Cotton shows more strength, notwithstanding the exports are falling of and the stock on band increasing. The stock is 60,382 bales more than that on hand for the corresponding period of last year. The gold speculation has been rather quiet for the greater part of the week, though there was some little activity to-day. with an advance to 112, but the price soon receded to 1111, at which the market closed, the range of the week having been 1111@1121, the closing price showing an advance of ? since last Saturday. The following table shows the course of the gold market during the past week:

Government bonds have exhibited unusual strength in the face of importations of those securities from Europe. The advance in currency valuation here since last Saturday has rangedfrom t to 11 per cent, and averaged between ; and ? per cent for the various issues. The business in Southern State bonds has been unimportant and mainly limited to Tennessee, Virginia and North Carolina issues, though we hear of a small sale of Florida Sixes at 8 and accrued interest. Rarlway bonds are generally strong for those which are regarded as undoubtedly good. The money market is without material change, call loans having ranged from 21 to 5 per cent, with the predominating business at 4 per cent. There is no quotable change in the discount rates, though there is perhaps a little more scrutiny on the part of those purchasing business paper, on account of recent failures and gossip about other possible misfortunes in this line yet to come upon the business community. The sudden passage through the Senate of the fixed-up caucus Finance bill is the subject of much comment in business circles, and there seems to be no well settled opinion as to the effect of the measure in case it becomes a law; though there are some very intelligent financiers, who desire a return to specie payment, who seem to think the proposed law may work well and do good in the bands of a competent and upright Secretary of the Treasury, in whose hands it lodges extraordinary power. This view of the subject may be a correct one; but still the country may not be

prepared to grant plenary powers to the Secretary

of the Treasury. It requires no great stretch of memory to recall a time when the business commu-

nity was kept for weeks in a state of suspense,

anxiety, and excitement as to what the Secretary

would do or would not do, that seriously interrupted

business operations. The very small decline in the

or memorandums held by them on the evening of the 19th inst. The resolution was referred to the Committee ou Banking and Currency, and it is to be hoped that it has not been buried there. The railway and miscellaneous share speculation started off at the opening of the week with considerable activity and was at times attended with a certain degree of excitement and somewhat wide fluctuatious, but the interest abated toward the close. The most active stock, as well as that in which the widest fluctuations occurred, was Pacific Mail, which sold up to 371 and down to 331, finally rallying to 361, at which quotation it closed to-day. The sales of the week, as will be seen by our table below, amounted in this stock to 203,600 shares, a trifle more than the entire capital stock of the Company. North-West, which was the next most active stock, sold during the week at the extremes of 43 and 461, closing at 461 and showing an advance for the week of 2? per cent. Then comes Western Umon Telegraph, which on Saturday last closed firm at 83, and sold, for some reason not readily explainable, down to 78}, and only recovered to 78} to-night. Lake Shore went off to 781, back to 81, and finally closed at 801. Union Pacific fluctuated between 352 and 332, finally closing at 343. Erie has been tolerably steady, the range having been 271 and 261 The next most active stocks were Wabash, Rock Island, St. Paul, and Ohio and Mississippi. The subjoined table shows the extreme fluctuations in United States bonds, the leading railway and miscellaneous shares, and gold, made during the past week, as well as the closing quotations of each at dates undermentioned, and the number of shares of each of the leading stocks sold during the week:

At the opening of the market to-day prices at first were a shade lower than at the close of Thursday, but intense dullness was the feature. This state of things was taken advantage of by a few of the traders to make a whirl in Lake Shore, and it was suddenly marked up by liberal bids for round lots from 791@801, when the dividend story was repeated; but this time it was what was expected to occur next week, and not, as with the rumor earlier in the week, an accomplished thing. The natural effect of this move was to give life to the whole list for a time, but the advance was followed by a dullness fully as marked as that of the morning, and at the very close the market showed a declining tendency.

The leading stocks to-day, after Lake Shore, were North-Western, Wabash, Paciale Mail, and Western Union, and in the latter there was as much mystification regarding the seilers' 60 days options as on other days. All these stocks were fractionally higher than at the close on Thursday, except Wabash, which receded i per cent. The opening. highest, lowest, and closing prices of active stocks sold to-day were as follows:

The bidding and asking prices for stocks at the

close of Exchange to day were as follows:

This has been a holiday in London, and no financial advices were received. The foreign exchange market was dull as usual after the packet sailed, but in tone firm at rates given below. Gold opened at 111], sold at 111?, and by 2 o'clock, under sharp buying, the price was carried up to 1123, the highest point of the week. From this it declined to 1111. and closed at that price bid. On gold loans rates were tlat, and 1, 2, and 3 per cent paid for carrying. The specie shipment to-day was \$953,000, of which \$650,000 was gold coin. The Assistant Treasurer paid out to-day \$1,003,000 in gold coin interest, a total of January interest to date, \$1,883,000; redeeming \$75,000 in called Fivetwenties; making the respective weekly totals \$2,015,000 and \$622,000. The import entries of foreign dry goods at the port of New-York for the week ending to-night were \$813,471 (the amount thrown upon the market footing up \$968,692), and of general merchandise \$3,152,102, making a total in of general merenandise \$2,365,762. The export clearances of domestic produce from this port for the

Money has been easy all day at 3 to 4 per cent on call, prime mercautile paper selling at 6 to 7. The bank statement showed the usual unexplainable change in gold, all the items being decreased, resulting in a further reduction of the surplus of \$530,150, the banks now holding in excess \$7,088,100. The Washington advices report that the United States Treasurer to-day received \$650,000 National bank notes for redemption. The Internal Revenue receipts to-day were \$650,000, making a total for month to date of \$7,700,000. The Treasury holds \$385,330,000 in bonds to secure National bank circulation, and \$16,330,000 to secure public deposits. The outstanding National bank note circulation is \$349,-600,000, of which \$2,300,000 are gold notes. The Treasury shipments of legal tender notes and fractional currency for the week ending to-day amounted to \$2,400,000. State bonds were quiet and steady. Tennessee new series sold at 58. Railroad bonds were firm on a comparatively small business.

In city bank stocks there were no transactions recorded at the Board beyond the sale of 100 shares Bank of Commerce at 121.

Capt. Tyler, who was sent out by the English Eric stockholders to report upon that road and its connections, thus speaks of the Cincinuati freights and of the effect which the new Virginia line has had upon freight rates: "The Chesapeake and Ohio system has lately taken a large share of the Cincinnati trafile by water communication of 150 miles to Huntington, and thence by rail to Richmond and steamer to New-York. By carrying that freight through in six days at a reduction of from \$10 per ton received in the previous Winters to \$6, they caused a corresponding reduction in rates by other routes and to other points during the past Winter."

The semi-annual interest due on the first mortgage bonds of the Ithaca and Athens Railroad Company will be paid on and after Jan. 2 next at the Metropelitan National Bank in this city.

GENERAL MARKET REPORT.

GENERAL MARKET REPORT.

SATURDAY, Dec. 26, 1874.

FLOUR AND MEAL—We have had very few features worthy of note in our froot marset the past work. As usual during the holdies the local tride has been moderate, bothers and retail designs the holdies the slopely presenting wants, and the business of the work has not proved try astronic base here quite therat, exceeding materials the general retail astronic way most well informed dealers filt confident that there is until the pole tride at the West and South, the this work to the wilder on most write a require daily receive would have shown quite a falling off ore this, the current prices have the cust to the miller on most trades it very considerable. Winter Wheat Fours (first granding) as a rule, are selling below the cost of production, and it would seem reasonable to concline that the infatualism to do business at all baseds would some be creed. We notice a decided failing off in the protection of Subrefule and No. 2 Flour; these have subreved, and command relative y high prices. A fair business has been done in the low graces of MinnessAt Erras for export a short protection for the state of the subreved and command relative y high prices. A fair business has been done in the low graces of MinnessAt Erras for export at short protection of the business satisfactory to the miller, but time was the locate the business satisfactory to the miller, but time would be true demand for Vinter What bunds, raised it 55, 8408-85, for the Losson market, where they are properly approximed.

New-Orients, Dec. 18......

ar me nos price carrent. The exports of the week are ESS-0000 busicels, against 4-88-000 busicels, against 4-88-000 busicels, against 4-88-000 busicels, against 4-88-000 busicels, against 4-8-0000 busicels, against 4-8-0000 busicels, and are seen from San Francesco ance our last is much due of the C. 10, the River Lone, for Liverpool, with 18-000 bliss, Frant. There are 6's vessels, again to 17-000 t. an. loading with Visual crishly, and are hear the Galatta will also tollow the fiver Lune with Frant to Interpool, and we hear of three charters made to load Fluors for France.
